

Silicone Extrusions / RoHS & Reach Compliance

EU Directive 2011/65/EU restricts the use of six substances and states maximum allowed concentrations in the homogenous material of certain electrical equipment. These are, as follows (by weight):

- Lead: 0.1%
- Mercury: 0.1%
- Cadmium: 0.01%
- Hexavalent Chromium: 0.1%
- Polybrominated Biphenyls (PBB): 0.1%
- Polybrominated Diphenyl Ethers (PBDE): 0.1%

The manufacturer confirms that the silicone rubber does not contain any of the restricted substances in concentrations and applications banned by the Directive.

The manufacturer confirms that the silicone rubber is compliant to the RoHS I & II guidelines (according to 2002/95/EU and 2011/65/EU in its latest revision).

The manufacturer confirms the silicone rubber is REACH compliant (Registration, Evaluation, Authorization and restriction of Chemicals) to European Directive 1907/2006. Our products do not contain chemicals identified as Substances of Very High Concern (SVHC) by the European Chemicals Agency to the current candidate list.

The manufacturer has taken all reasonable steps to confirm this statement, including declaration from each member of the supply chain.

All recommendations and information contained on this data sheet are, to the best of our knowledge, correct. Product specifications are intended as guidelines. Since conditions of service are beyond our control, users must satisfy themselves that products are suitable for the intended use. No guarantee or warranty is given or implied in respect of information or recommendations, or that any use of products will not infringe rights belonging to other parties. We reserve the right to change product design and properties without notification.
